STATE IMPLEMENTATION PLANS AND RULE MATTERS

- Item 82. [Docket No. 2008-0335-SIP](#). Consideration of the adoption of revisions to the state implementation plan to implement revisions of the federal **Clean Air Interstate Rule (CAIR)** and Senate Bill (SB) 1672 of the 80th Texas Legislature, Regular Session, 2007. The revisions incorporate federal changes to the CAIR program; methodology for allocation of CAIR nitrogen oxides (NOX) allowances as specified by SB 1672; and non-substantive administrative changes. (Melissa Kuskie, Terry Salem) (Project No. 2007-051-SIP-NR)
- Item 83. [Docket No. 2008-0334-RUL](#). Consideration of the adoption of amendments to **30 Texas Administrative Code (TAC) Chapter 101**, General Air Quality Rules, Subchapter H, Emissions Banking and Trading, Division 7, Clean Air Interstate Rule, Sections 101.502, 101.504, and 101.506, and corresponding revisions to the state implementation plan. The adoption will implement revisions to Texas Health and Safety Code, Section 382.0173 as required by Senate Bill 1672 from the 80th Legislature, 2007, Regular Session, which revises the methodology for allocation of Clean Air Interstate Rule nitrogen oxides allowances. The adoption will also incorporate federal changes to the Clean Air Interstate Rule and make non-substantive administrative changes. The proposed rules were published in the September 25, 2009, issue of the *Texas Register* (34 TexReg 6599). (Brandon Greulich, Amy Browning) (Rule Project No. 2007-053-101-EN)

- Item 84. [Docket No. 2009-0845-RUL.](#) Consideration for adoption of the repeal of **30 TAC Chapter 101**, General Air Quality Rules, Subchapter H, Emissions Banking and Trading, Division 8, Clean Air Mercury Rule, Sections 101.601 and 101.602; the amendments to **30 TAC Chapter 122**, Federal Operating Permits, Subchapter A, Definitions, Sections 122.10, and 122.12, and Subchapter B, Permit Requirements, Section 122.120; and the repeal of Chapter 122, Federal Operating Permits, Subchapter E, Acid Rain Permits, Clean Air Interstate Rule, Clean Air Mercury Rule, Sections 122.440, 122.442, 122.444, 122.446, and 122.448; and the corresponding repeal of the Texas State Plan for the Control of Designated Facilities and Pollutants, Plan for Control of Mercury Emissions from Coal-Fired Electric Steam Generating Units, Clean Air Mercury Rule. The adoption will repeal the state Clean Air Mercury Rule requirements that incorporated by reference the federal Clean Air Mercury Rule. The federal Clean Air Mercury Rule, cited in Texas Health and Safety Code, Section 382.0173, promulgated by House Bill 2481, 79th Legislature, 2005, was vacated by the courts and is no longer an enforceable federal requirement. Also, a letter from the Commission will notify the United States Environmental Protection Agency (EPA) of the withdrawal from consideration of the Texas State Plan for the Control of Designated Facilities and Pollutants, Plan for Control of Mercury Emissions from Coal-Fired Electric Steam Generating Units, Clean Air Mercury Rule, which was previously adopted by the Commission on July 12, 2006. Because the rule is no longer enforceable and is being repealed, the Texas State Plan for mercury must also be repealed and withdrawn from consideration of approval by the EPA. The proposed repealed and amended sections were published in the September 25, 2009, issue of the *Texas Register* (34 TexReg 6607). (Brandon Greulich, Amy Browning) (Rule Project No. 2007-054-101-EN)
- Item 85. [Docket No. 2009-0744-SIP.](#) Consideration for the adoption of a revision to the state implementation plan (SIP) concerning repeal of the **Texas portable fuel container (PFC)** rule. This adoption of the Texas PFC Rule Repeal SIP Revision will remove Texas PFC regulations from the control strategy for the State of Texas Air Quality Implementation Plan for the Control of Ozone Air Pollution for all affected 1997 eight-hour ozone standard nonattainment and near nonattainment areas in Texas. This adoption to the SIP revision will incorporate rulemaking repealing state PFC rules and demonstrate that federal PFC standards promulgated in 2007 provide replacement emission reductions. Because those emission reductions are estimated to be equal to or greater than those derived from the state regulations, the repeal of the Texas PFC rule will not negatively impact the State of Texas Air Quality Implementation Plan for the Control of Ozone Air Pollution. (Lisa Shuvalov, Chrissie Angeletti) (Project No. 2009-024-SIP-NR)
- Item 86. [Docket No. 2008-1401-RUL.](#) Consideration of the adoption of **30 TAC Chapter 116**, Control of Air Pollution by Permits for New Construction or Modification, Subchapter A, Definitions, new Section 116.20, Portable Facilities Definitions; and Subchapter B, New Source Review Permits, new Division 8, Portable Facilities, new Section 116.178, Relocations and Changes of Location of Portable Facilities, and corresponding revisions to the state implementation plan. The adoption of new sections in Subchapters A and B and the corresponding state implementation plan revision would provide guidance regarding the proper procedures for movement of portable facilities. The new rules would affect the public notice requirements for the relocation or change of location of a portable facility. The new rules would also incorporate existing guidance issued by the Air Permits Division into the TCEQ's rules. Some of EPA's comments resulted in changes to requirements and rule references within the rule. The proposed rules were published in the September 11, 2009 issue of the *Texas Register* (34 TexReg 6281). (Becky Southard, Booker Harrison) (Rule Project No. 2008-031-116-PR)

- Item 87. **Docket No. 2009-0542-RUL.** Consideration for the adoption to repeal Sections 115.620 - 115.622, 115.626, 115.627, and 115.629 of **30 TAC Chapter 115**, Control of Air Pollution from Volatile Organic Compounds, and corresponding revisions to the state implementation plan. The proposed adoption will address adopted federal standards for Portable Fuel Containers (PFC). Specifically, the United States Environmental Protection Agency adopted a federal PFC rule (72 Federal Register 8432, February 26, 2007) that set a national standard for gasoline, diesel, and kerosene PFCs. All PFCs manufactured on or after January 1, 2009, are required to comply with the federal standards. The federal standards promulgated are more stringent than the current state PFC regulations. Therefore, it is necessary to repeal the state PFC regulations. The proposed repealed sections were published in the September 11, 2009, issue of the *Texas Register* (34 TexReg 6279). (Lisa Shuvalov, Chrissie Angeletti) (Rule Project No. 2008-032-115-EN)
